

# Wisconsin's Minority Population

Sources: WI Population Statistics (U.S. Census Bureau, American Community Survey, 2005), WI High School Graduates (WI Dept. of Public Instruction, 2006-07), ACT Testers (ACT Inc.), UW System and UW-Madison Enrollments (UW System Administration, Student Statistics, 2006). Notes: High school are those who graduated from public high schools. High school class rank is self reported at the time of ACT testing. Minority includes African American, Hispanic/Latino, American Indian and Asian. For the WI population, minority figures include people who reported more than one race as long as one of the races was a minority category. Taking the ACT and being in the top 50% of the high school class roughly corresponds to UW-Madison's minimum admission requirements.
